79 2625 Platter Bamboo 25x13 cm

Bamboo characterises hard, resilient strength as well as delicate grace. The rectangular and square platters translate these seemingly contradictory features in a harmonious juxtaposition of stringent functionality and pure elegance.

The unusual structure of the platters is not only an aesthetically attractive eye-catcher in any table setting, it also creates a natural segmentation making it easy to create appetising arrangements.

The raised relief structure of these bowls has its origins in the irregular perfection of bamboo. A purity and simplicity of design inspired by the beauty of nature. These multifunctional pieces radiate an air of trendy Asian well-being.
